PROJECTS

PERSONAL PORTFOLIO WEBSITE   Nov 2023 – May 2024
- Created a personal portfolio website using HTML to build the layout and CSS to design
- Holds work experience, education, and links to socials and resume across two web-pages

ACTIVITIES

SECURITY DAEMONS   2022 – Present
- Member of DePaul University's Cybersecurity club
- Network of 500+ students, alumni, faculty
- Attend meetings, workshops, networking events, and conferences related to cybersecurity

UPSILON PI EPSILON   2024 – Present
- Member of DePaul University's chapter of Upsilon Pi Epsilon (UPE), a nationally recognized honor society of computing and information disciplines
- Network of over 300 chapters, as well as a network of over 150 members, alumni, and faculty at DePaul

WORK EXPERIENCE

DEPAUL UNIVERSITY   Chicago, IL
Student Network Analyst   January 2026 - Present
- Resolved Tier 1 technical escalations within team's ServiceNow ticket queue.
- Provisioned and managed VoIP endpoints through Teams Admin Center, handling deployment of physical hardware and account assignments.
- Repatched and replaced several switches in various network closets, ensuring full connectivity for affected rooms/buildings.
- Provided root-cause analysis for hardware and software issues, ranging from removing/changing Aruba and Mist APs to configuring phone accounts and testing connectivity for end devices.
- Tools Used: Teams Admin Center, ServiceNow, Juniper Mist, LibreNMS, NetBox, Office 365

COMPASS HOLDING   Clarendon Hills, IL
Information Technology Intern   July 2025 – August 2025
- Configured and deployed Microsoft Authenticator for Multi-Factor Authentication (MFA) across 100+ employee devices, ensuring secure access company-wide.
- Provided hands-on technical support for computer hardware, printers, VOIP phones, and other devices, troubleshooting issues to maintain operational efficiency for 10+ departments.
- Reimaged laptops and desktops for onboarding, including account setup, system configuration, and domain joining.
- Constructed RJ-45 Ethernet cables for office networking infrastructure.
- Aiding in moving the legal department into new office, running cables, moving hardware, and setting up Wi-Fi range extenders to ensure seamless transitions with minimal downtime.

ADDITIONAL

Programming Languages: Experience working in Java, Python, C, HTML, and CSS through classwork and projects
Lab Work: Worked in Cisco Packet Tracer/CML, creating virtual networks using ACLs, NAT, VLANs, static/dynamic routing
Volunteering: Volunteered at Dr. Pedro Albizu Campos High School in Chicago, tutoring Spanish-speaking students working towards English Proficiency
